Future Becker's Healthcare Events	92

WELCOME TO BECKER'S 13TH ANNUAL MEETING.

Welcome to the Becker's 13th Annual Meeting! We are thrilled to have you join us for this world-class healthcare event where you'll have the opportunity to learn from and network with top C-suite executives from hospitals and health systems across the U.S. Our fast-paced panels focus on the big ideas and bold initiatives driving better outcomes for patients, physicians, caregivers and the overall healthcare system.

The thought-provoking sessions focus on:

- Financial and strategic growth strategies
- Workforce models of the future and culture building
- Diversity, equity and inclusion efforts that work
- Physician and nurse leadership
- Mergers, acquisitions and key partnerships
- And more!

You'll walk away from each session energized with insights and action items to implement with your teams. We are also thrilled to connect you with industry leaders who can provide immense value to your organizations.

Healthcare is evolving faster than ever and you have the opportunity to make a difference for the patients, caregivers and communities you serve. We are honored to have you join us for this event.

Should you need anything at all during the event, reach out to the Becker's team at events@beckershealthcare.com. We are here for you.

Creating a Local On-Demand Workforce Marketplace: SSM Health's Journey

Join SSM Health and ShiftMed Executives to discuss their industry leading approach to solve for the workforce crisis and manage labor costs.

Using SSM Health's real-world example, the workshop will demonstrate the following:

- ✓ How to achieve a more sustainable and stabilized supplemental staffing solution without an agency.
- ✓ How to leverage non wage incentives and dynamic wages to meet patient ratio needs without high-cost premiums.
- ✓ How to select the best strategic partnership and tools to enable on-demand workforce programs.

Providence's Integration of Precision Medicine

A Value-Focused Discussion

Monday, April 3rd | 1:30-2:10 PM

Location: Grand J

- Learn the elements of programmatic strategy and execution
- Hear how to realize value across the care continuum
- Engage in an open Q&A to learn from the innovators

An excellent opportunity to learn how integrating genomic testing benefits the standard of care through research-aligned programs and supports catchment engagement, value-based care, and customer-centricity. With the recent positive coverage decisions, the future is here for many service line and system-level strategies.

Tried and tested: How health system partnerships unlock value in the laboratory

April 4, 2023 | 10:25-11:05 AM, CST | Grand Suite 3

Maintaining a health system's performance while addressing labor shortages and ever-evolving economic and regulatory pressures is harder than ever. In recent years, many large health systems have leveraged laboratory partnerships to optimize their workforce and supply chain, improve financial performance, and boost quality and access to care.

Please join us as Bryan Vaughn, senior vice president of hospitals and health systems at Labcorp, moderates a discussion examining diverse approaches to laboratory partnerships.

Infection prevention in today's "new normal"

Throughout the pandemic, healthcare providers around the world did everything in their power to protect patients and staff. Today, many facilities face staff shortages and burnout. It's more important than ever to efficiently equip care teams — one of your most valuable resources — with dependable products and information that help protect them from hospital-acquired infections (HAIs).

1 in 31 patients
in the U.S. are infected by HAIs at any given time¹

600,000+ patients
in the U.S. annually will develop HAIs²

\$3.5 billion to \$10 billion per year
the cost of HAIs to the U.S. healthcare system³

Breaking the Cycle:

Improving Transition of Care for Patients Following an Osteoporosis-Related Fracture

*JOIN OUR WORKSHOP AT BECKER'S
HOSPITAL REVIEW 13TH ANNUAL MEETING*
Wednesday, April 5, 2023 | 11:25 a.m. - 12:05 p.m. CT
Hyatt Regency Chicago, Grand I

For patients experiencing a fragility fracture, many adults **remain undertreated for osteoporosis, leading to secondary fractures and increased costs** for patients and the healthcare system.^{1,2}

Join us for a discussion about Amgen and Mayo Clinic's collaboration in a patient-centered pilot program that facilitated a structured handoff process between bone specialists and primary care providers, resulting in improved rates of osteoporosis diagnosis and treatment.

The workshop will also explore strategies for engaging healthcare stakeholders in interventions and next steps for improving care outcomes.

MEETING ADJOURNS

Health systems need more than 2-way video.

eVisit is the operational platform that delivers seamless virtual care coordination.

Robust Virtual Triage | **Hybrid Care** | **Tele-Psych** | **Translation**

e Enhanced Patient Experience

According to a recent JD Power study, eVisit is considered one of the top three virtual care platforms for patient satisfaction. Its exceptional user interface and streamlined access to care teams resulted in an average patient satisfaction score of 99%.

e Improve Outcomes

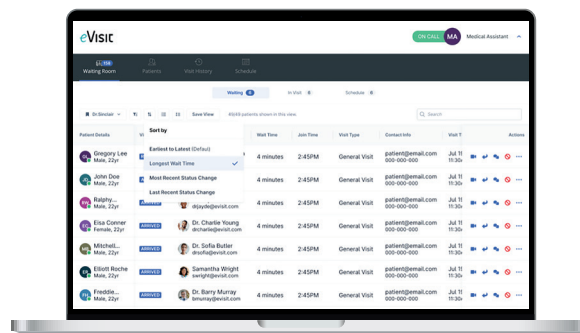

eVisit improves patient outcomes and care quality by increasing communication and access to care teams, improving HEDIS scores, and addressing health equity. eVisit also meets Joint Commission safety standards while offering translation services, literacy and low-bandwidth accommodations.

e Financial Resilience

By increasing the volume of higher acuity billable encounters and optimizing staff capacity, eVisit improves profitability, revenue, and referrals, reducing claim rework costs and patient leakage rates and increasing copay collection and total documented encounters.

e Improved Clinician Experience

eVisit enhances the clinician experience by enabling providers to practice at the top of their license, reducing administrative tasks such as after-hours EHR time, transactional care, and workflow debt, leading to increased provider satisfaction and better patient care.

WHAT'S EASY TO SEE IN OUR CLOUD? OPPORTUNITY.

It's easier than ever to access advanced cloud analytics with SAS® Viya® on Microsoft Azure. Viya is optimized for Azure, which means it's easier to find, share and analyze information all in one place. So more people can ask the questions that lead to more opportunities. Together, SAS and Microsoft make it easier to find answers in the cloud.

A low-angle shot looking up at several surgeons in an operating room. They are wearing blue scrubs, masks, and hairnets. Bright surgical lights are visible at the top of the frame, creating a dramatic, high-contrast scene. The surgeons' faces are partially visible through their masks as they look upwards.

We have a bright future together.

Healthcare is constantly changing, that's why Surgery Partners is committed to building a stronger future for our patients, colleagues, and clinical partners today. More procedures are moving to outpatient surgery centers which saves the healthcare system over \$38 billion annually*. Commercial payers can offer their members high-quality care at more convenient locations. Ease of access and lower cost for care is increasing patient satisfaction.

Physician partners lead a balanced life with a vested interest in improving patient outcomes, clinical advancements, and share a voice in the decisions that effect their personal and professional success. Want to help build the partnership of the future?
